

# WS388

Silicone heat resistance glove with food safe to reduce the risk of contamination

## DESCRIPTION

Liquid silicone fully coated glove

## FEATURES

- Heat resistance
- Polyester liner
- Food safe
- Liquid silicone coating

## COATING

Liquid silicone

## MATERIAL

Polyester

## BENEFITS

- Withstands temperature up to 250°C protects hands from burns and injuries
- The unique polyester lining offers superior moisture absorption and soft touch ensuring comfort while keeping you dry
- Reduce the risk of contamination with food safe feature
- Liquid silicone coating offers superior grip performance in dry condition

## APPLICATIONS

- Hot surface handling
- Hot object and equipment handling
- Industrial kitchen
- Outdoor cooking and barbecue

## INDUSTRY

- Machinery
- Manufacturing
- Food processing
- Culinary and grilling industry

## PACKAGING

- 1 Pair per polybag
- 25 Pairs per carton

## LENGTH

330mm ± 20mm

## THICKNESS

-

## SIZES

- 7/S
- 8/M
- 9/L
- 10/XL

## COLOUR

White/ Black

## STANDARDS

## USER INSTRUCTIONS:

Protection against mechanical risks. Discard used gloves in compliance with local regulations. Clean the glove with a damp cloth to remove contamination. Permeation information does not reflect the actual duration of protection in the workplace due to other factors that may influence the performance and the differentiation between mixtures and pure chemicals. The performance levels apply to the coated surface only. Store in a dry place, away from the light.
